PRESS RELEASE

All India Insurance Pensioners' Association (AIIPA), extends its wholehearted support to the farmers, who have embarked on a Delhi Chalo Mission and to farmers of different states who have been organising solidarity movements in their respective states, demanding withdrawal of Farm Laws enacted by the Government.

AIIPA condemns the attitude and actions of the Central Government and Haryana and U. P. Governments, who had used all intimidatory tactics to prevent the farmers from reaching Delhi.

AIIPA notes that the Government, instead of talking to the agitating farmers, had stipulated pre-conditions for a dialogue and with the refusal of the organisers for the conditional offer, has now decided to initiate the process.

Ever since the Farm Laws were passed in Parliament, there have been vociferous voices, against the Acts, as these are against the farming community and these tend to favour the big corporates.

The main demand of the farmers organisations has been repeal of the Farm Laws and the Government, as is its won't, had been putting the blame on opposition parties stating that farmers are being misled.

The Farmers' Organisation have prepared themselves for a long haul and AIIPA urges upon on all Insurance Pensioners to help the farmers in all possible forms.

All India Insurance Pensioners' Association (AIIPA) warmly greets the farmers, who have assembled at the borders of Delhi, braving all odds and hopes that their struggles will succeed and the Government will be forced to backtrack.

AIIPA demands of the Government not to demean the agitations of the farmers but to take steps to repeal the Farm Laws and also ensure that interests of the farmers are protected.

Yours faithfully,

(T.K.CHAKRABORTY)
