Dear Comrades,

## 5th All India Women's Convention at Kozhikode on 17th September : A Historic Success

The 5th All India Women's Convention of AIIEA at Kozhikode (Calicut) in the state of Kerala on 17th September 2022 was another feather in the cap of AIIEA. Around 300 women delegates and observers from across the country participated in the Convention. The forbiddingly long distance that one had to travel to reach Kozhikode came as no dampener. Nor were the last minute rail and air traffic disruptions able to cause any dent in the spirit of the women comrades. The air was filled with enthusiasm and excitement. Spirited sloganeering accompanied by thunderous beating of the drums by a local troupe and the beautiful opening songs by the cultural troupe of LICEU Kozhikode Division provided the perfect setting for a grand Convention. The convention started with the flag hoisting by Com. P.P. Krishnan, Vice-President AIIEA.

The Inaugural Session was presided over by Com. P.P. Krishnan, Vice President AIIEA. In the absence of Com. Kanathil Jameela, MLA, who was the Chairperson of the Reception Committee, Com. Bhagyalakshmi, Vice Chairperson of the Reception Committee, gave the Welcome Address. Com. K.K. Shailaja Teacher, MLA and former Minister of Health and Family Welfare, Government of Kerala, inaugurated the Convention. In her brilliant inaugural address, she complimented the cadres of AIIEA for their uncompromising struggle against privatisation of public sector insurance industry and assured that the people of Kerala would fight shoulder to shoulder with insurance employees to achieve the shared goal of defeating the threat of privatisation. Globally regarded as the Covid slayer for her deft handling of the Covid pandemic and the Nipah virus menace, Com. Shailaja gave a graphic account of how democratic decentralisation has been playing a significant role in improving the lives of people in Kerala. She said that the single most important factor that enabled the left front government in Kerala to tackle the pandemic is the strength of the State's public health system. According to her, Kerala's public health system got a new lease of life under the Left Front government with a big push in infrastructure and equipment investment. She said that the LDF government could effectively implement the policy of 'trace,

quarantine, test, isolate and treat' because the Primary Health Centres (PHCs) in the State were working under the Panchayats even though they were under the Health Department. She explained that the synergy generated by integrating state government plans and programmes with the local governments, co-operatives, women neighbourhood groups (Kudumbashree) and civil society organisations worked wonders during the pandemic. She was categorical that it is due to these synergies that Kerala stands out as the most prosperous state in India in terms of basic human development indices like infant mortality rate, literacy rate and gender justice. She urged the women comrades of AIIEA to contribute their mite to improving the lot of women in Indian society apart from contributing to the struggle of the trade union.

He urged the women Comrades of AIIEA to lead that campaign from the front so that Indian society could be saved from the virulent campaign of hatred.
